

PRODUCT DATA SHEET

DT2236B 2 IN 1 laser + contact tachometer

Digital Tachometer High Precision Tachometer Motorcycle 2 In 1 Contact And Non-Contact

- ❑ Allows user to safely measure RPM accurately without the need to attach the tachometer to the object
- ❑ Provides wide measuring range and high resolution
- ❑ Digital display providing exact RPM (eliminates guesswork when looking at scale)
- ❑ Make use of our exclusive Micro-Computer LS-ICircuit and crystal base to offer the most accurate and fastest measurement
- ❑ The last value/max, value/min will be automatically stored in memory which can be retrieved anytime
- ❑ The use of durable, long lasting components, including a strong, light weight ABS-plastic housing

Feature:

Measuring Range

- Photo Tach: 2.5~99,999RPM
- Contact Tach: 0.5~19,999RPM
- Surface Speed: 0.05~1,999.9m/min

Resolution

- Photo tach: 0.1RPM(2.5~999.9RPM); 1RPM(over 1,000RPM)
- Contact tach: 0.1RPM(0.5~999.9RPM); 1RPM(over 1,000RPM)
- Surface Speed: 0.01m/min(0.05~99.99m/min); 0.1m/min(over 100m/min)
- Accuracy $\pm(0.05\%+1 \text{ digit})$
- Detecting Distance 50~500mm
- Display 5 digits LCD display
- Time Base 6MHz Quartz crystal
- Dimension 210x74x37mm
- Weight 57g
- Power supply 4x1.5V AA 1.5V Battery
